2 **relating to:** the waiver of requirements for trapping approvals for certain
3 special events or programs sponsored or approved by the department of natural
4 resources.

Analysis by the Legislative Reference Bureau

Under current law, for a special event or program that involves hunting or fishing for sport, the department of natural resources (DNR) may exempt the participants from having the applicable hunting or fishing approvals if the event or program provides education in or increases appreciation of the hunting or fishing activity and if DNR will not suffer a substantial loss of revenue due to the participants not having to pay for the approvals.

This bill expands the scope of these provisions to include special events or programs that involve trapping for sport.
